New Russia Township Lodge
46300 Butternut Ridge Rd.
Oberlin, Ohio 44074

University of Cincinnati's Center for the Electronic Reconstruction of Historical and Archaeological Sites (CERHAS)

THE NEWARK EARTHWORKS A First Century Pilgrimage Center

The Newark Earthworks is the largest connected series of monumental geometric earthworks in the world. The site is known as one of the most important ceremonial centers of the Hopewell culture (circa AD 1-400).

Join us as Dr. Lepper discusses how he thinks the earthworks were used as pilgrimage centers, drawing thousands of people from hundreds of miles away to present offerings of supplication or thanksgiving and to participate in the rituals that linked the Hopewell people to each other and to the cosmos.

Contact Mr. Brian Scanlan 440-258-7775 for reservations
